How to stiffen long hair hat bodies

Do you need to know how to stiffen long hair hat bodies? same techniques as for velours too.

Apply stiffener after the hat is blocked and dried on the hat block.

If the hat body is when the water inside the felt will prevent the stiffener from entering the felt.

You want the stiffener to enter the felt at a deep level.

After the stiffener has penetrated the inner felt, then get a dry absorbent cloth and remove the stiffener from the surface. Rub with a clean cloth, change clothes if needed.

Brush the knap.

Remove from the block when the felt is dry completely to avoid shrinkage.
