

Tailored Bow

You'll need:

10 inches of #5 or 7/8" Grosgrain Ribbon Thread Sharp Sewing Needle
Scissors

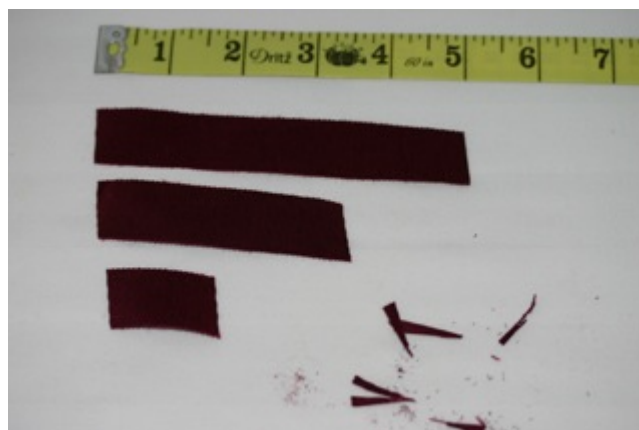

1. Measure and cut 10 inches of the grosgrain.

2. Cut 5 inches off for the loops of the bow... 3 1/2 inches for the bottom of the bow
1 1/2 inches remain for the center of the bow.

3. Clip the 3 1/2 inch ends of the ribbon at an angle.

4. Loop the 5 1/2 strip together raw edges meeting. Using an overcast stitch sew the ends together. Bring the seam to the center of the loop and finger press the loop.

5. Place the 3 1/2 inch strip over the loop with the sewn edge facing the 3 1/2 inch strip. Center the seam and stitch the ribbons together with an over cast stitch.

6. Using the 1 inch strip fold to around to the back of the bow and stitch together.

7. Finished Bow.
